Sound familiar?

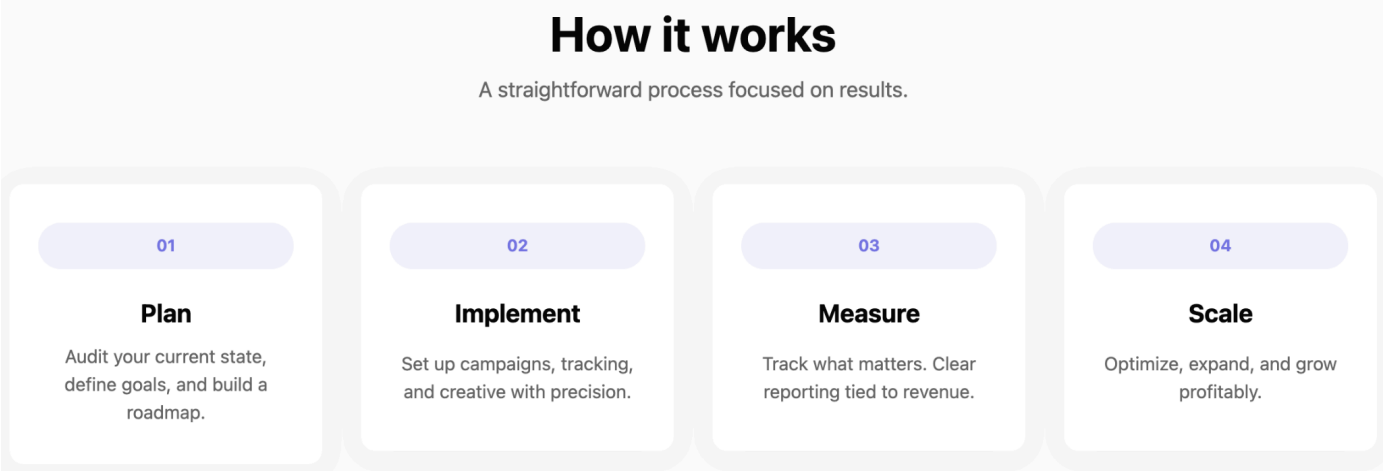
(**dopo Burning budget**)

Tired of "vanity metrics" that don't match your bank balance? → Clear, honest reporting tied to your actual business reality.

Locked into rigid yearly contracts and hidden penalty fees? → A flexible, margin-first partnership built on consistent results.



***Add the "05 - Repeat" card.**
***Aggiungere un'icona per ogni tappa (plan = pennello, implement = ruota configurazioni, measure = bilancia, scale = small to big square, repeat = frecce in continuitá)**

01- Plan
Audit your current state, define goals, and build a roadmap.

(+) button: We begin with a deep dive into your market position, audience, and competitors to identify the optimal channel mix. This involves crafting a compelling, consistent message to be strategically communicated across all platforms. The result is a comprehensive strategy designed to ensure maximum reach and measurable success.

02- Implement
Execute high-performance campaigns with precision and creative excellence.

(+) button: We transition from strategy to action by launching data-driven campaigns across your selected marketing ecosystem. I will handle everything from technical setup and tracking to creative deployment, ensuring every touchpoint is optimized. This phase is about seamless execution and getting your message in front of the right eyes at the right time.

03 - Measure
Track key performance indicators to turn raw data into actionable insights.

(+) button: We don't look at vanity metrics; we focus on the KPIs that impact your bottom line. By utilizing advanced analytics and data analysis, we pinpoint exactly what is driving conversions and where the friction lies. You receive transparent reporting that translates data into clear, actionable insights for your business.

04 - Scale
Expand winning strategies to maximize your return on investment.

(+) button:Once we identify the "winners," we shift gears to amplify your results. This involves increasing budgets strategically, expanding into new audiences, and diversifying creative assets to maintain momentum. We focus on growing your volume while protecting your efficiency, ensuring your cost-per-acquisition remains sustainable as we scale.

05 - Repeat
Maintain a cycle of continuous optimization to stay ahead of the market.

(+) button: Success in digital marketing is a moving target, so we never settle for "good enough." We take the learnings from every cycle to refine the plan and start the process again with even better data. This iterative approach ensures your brand remains agile, competitive, and consistently profitable in an ever-changing landscape.

ABOUT

Why Human Marketing?

Prioritizing personal partnerships in a data-driven world.

While most agencies treat accounts as numbers in a spreadsheet, I believe the strongest results come from a humanistic approach. I focus on building genuine, personal relationships where your business goals are treated as my own. By putting people at the center of the strategy, I combine high-level technical performance with the transparency, empathy, and dedicated communication that a traditional agency simply cannot replicate.

Meet Arturo

10 years managing 6-figure monthly ad budgets for top agencies.
Now working directly with businesses ready to scale.

The Story

After a decade working with major marketing agencies managing multi-million dollar campaigns, I realized something: great businesses often struggle to get the senior-level expertise they need without the overhead of a full agency.

I founded Human to bridge that gap. You get direct access to someone who's managed campaigns at scale, knows the platforms inside out, and treats your budget like it's their own.

No account managers playing telephone. No junior staff learning on your dime. Just experienced, strategic paid media management focused on one thing: **turning your ad spend into revenue.**

The Story

After a decade working with major marketing agencies and managing multiple 6 figures monthly budgets for a wide range of clients in almost every industry, I realized something: **great businesses often struggle to get the high quality service, flexibility and a results oriented approach that they need to thrive in a competitive market.**

I founded Human Marketing to bridge that gap.
You will get access to someone who's managed campaigns at scale and knows the platforms inside out.

Let's face it, PPC and digital advertising won't make all the work if your product, landing page and customer journey are bad. That's why **I don't only focus on improving your campaigns** with laser focused strategies that pay for themselves but **I also provide you with actionable insights to improve your conversion rate** and provide a smooth, friction-free customer experience.

By joining Human Marketing you won't have account managers playing telephone. No junior staff learning on your dime. Just experienced strategic paid media management and digital marketing expertise focused on one thing; **turning your ad spend into revenue.**

Common Questions

What platforms do you work with?

Google Ads, Meta (Facebook/Instagram), TikTok, LinkedIn, and Microsoft Ads. I recommend the best fit based on your business.

Do you work with small budgets?

I typically work with businesses spending $3k+/month on ads. If you're just starting, the Audit & Strategy package is a great first step.

What industries do you specialize in?

I've worked with e-commerce, SaaS, lead generation, and local businesses. I focus on performance, not just specific verticals.

How quickly can we start?

Depending on availability, typically within 1-2 weeks for audits and 2-3 weeks for full campaign launches.

Common Questions

Which platforms do you work with?
I work with almost every self-service paid media platform and the essential marketing technology stack required for robust management. We choose the right platforms for your specific objectives, but my experience includes:

- Core Paid Media Channels
    - Search & Display: Google Ads, Bing Ads
    - Social & Video: Meta Ads (Facebook/Instagram), TikTok Ads, LinkedIn Ads, X (formerly Twitter), Pinterest, Reddit
    - E-commerce: Amazon Ads

What industries do you specialize in?
I've worked in multiple industries from retail to high-growth DTC (Direct-to-Consumer), B2C, and B2B brands. My experience is broad, covering everything from:

- B2B & Lead Generation (For professional services and companies focused on acquiring qualified leads).
- Fashion & Apparel
- Beauty & Wellness
- Energy & Automotive
- Sporting Goods & Supplements
- Specialty E-commerce

Do you work with small budgets?

I support businesses from the ground up and have structured my services to ensure high-level expertise is accessible even with smaller advertising budgets

How quickly can we start?

The short answer is: The process is rapid and client-driven. We can move from agreement to action in approximately one week, once the necessary onboarding steps are finalized.

- **Formal Agreement:** The initial step is agreeing on the collaboration terms and the prompt sign-off of a flexible service contract.
- **Platform Access:** Immediate access is required to your key marketing ecosystem. This typically includes your advertising accounts (e.g., Google Ads, Meta Ads), your analytics platforms (e.g., Google Analytics, Looker Studio), and your business manager/asset accounts to ensure proper tracking and campaign setup.
- **Project Kick-off:** Once the contract is signed and all platform access is secured, the standard timeframe is approximately **one week** to complete the initial setup, a final tracking review, and begin the Audit or launch the first high-performance campaigns.
